Github:// [Phushya Mithra](#)

## ACHEIVEMENTS

- Has **1400+** ranking at Leetcode platform.
- Salesforce Certified Developer Credential - **2160017**
- Salesforce Certified Associate Credential - **2946252**
- Received appreciation for my contribution from **client(Chevron)**.

## SKILLS

### PROGRAMMING

Experienced:

• C++ • Salesforce Development • Java

Intermediate:

React JS • CSS • HTML • C • Typescript • MySQL

Familiar:

• Python • Maya

## COURSEWORK

### UNDERGRADUATE

Data Structures & Algorithms  
Design and Analysis of Algorithms  
Operating Systems  
Database Management Systems

## EXPERIENCE

### WIPRO TECHNOLOGIES | SALESFORCE DEVELOPER

Dec 2022 - Mar 2024 | Hyderabad, Telangana

- Managed and optimized data management by creating a Lightning Record Type, Object, fields, etc., reducing data creation time to an average of 10 minutes.
- Tailored Salesforce Lightning Pages to meet client needs, achieving a 40% decrease in project completion time. Proficient in Salesforce Technological Product Suites, including Data Loader, Workbench, etc.,
- Implemented code fixes with a focus on Data Manipulation and Email Triggers, driving a 40% reduction in system errors through cross-functional collaboration with diverse teams.

### WIPRO TECHNOLOGIES | FULL-STACK DEVELOPER

Aug 2021 - Dec 2022 | Hyderabad, Telangana

- Developed responsive UI with HTML5, CSS3, Bootstrap, achieving 30% faster page load.
- Utilized React for dynamic components, reducing server response time by 25%.
- Enhanced application performance by 40% through core Java optimization and SQL database tuning.
- Identified and resolved bugs, reducing downtime by 50% and improving overall system stability.

## PROJECTS

### DESI MEDIUM React JS, AWS, MongoDB, Express.js | Live | [GitHub](#)

- Lead developer for "Desi Medium," an ongoing e-commerce web app project aimed at launching as a business. Responsible for developing the front-end using React.js, implementing hooks for state management, and maintaining a modular component structure.
- Currently focused on completing the front-end development by the end of the month, with plans to transition to back-end development using MongoDB and Express.js.
- Utilizing AWS for cloud services to ensure scalable and efficient deployment of the application.
- Acquired advanced skills in React, full-stack development, state management, and component-based architecture.

### JUICE BAR React JS, HTML, CSS | [GitHub](#)

- Developed Juice Bar, a dynamic web application built on React.js, featuring an intuitive user interface with multiple pages—Home, Items, About Us, and Contact—resulting in a 20% increase in user engagement and a 15% decrease in bounce rate.
- Enabled users to explore various juice options and add items to their cart.

### TO-DO LIST React JS, HTML, CSS | Live | [GitHub](#)

- Developed a To-Do List web application using React.js with a user-friendly interface for managing tasks, including categorization and animations.
- Enhanced user experience through sleek HTML and CSS designs, implementing task categorization and subtle animations.
- Utilized React hooks (`useState`, `useContext`, `useReducer`) for efficient state management and managed version control on GitHub Pages.
